

# ☀️ Summertime Challenges ☀️

|   |                 |  |
|---|-----------------|--|
| 1 | Mrs Fraser      | <p>I love being outside in the sun! My challenge for you is to create your own bubble maker using any resources you have at your house. I wonder who will make the biggest bubbles?</p>                          |
| 2 | Miss Williams   | <p>As it is getting super-hot in the sun I want to challenge you to make the best water obstacle course! Hopefully this will cool you down and you'll have fun.</p>  |
| 3 | Mrs Rothwell    | <p>I would like you to bring some life to your garden! If you do not have a garden you can do an indoor version. Your garden can have flowers or be used to get our essential herbs, fruits or vegetables. Can you make it extra special and decorate it with a Lancot vibe?</p>                   |
| 4 | Mrs Stewart     | <p>Use any play equipment that you have, such as balls, ropes and hoops, to invent a new competitive game. Devise a set of rules and teach the game to others in your household. Play a game and keep score. Who is the winner?</p>  |
| 5 | Mrs Fitzpatrick | <p>Why not have a go at painting with a water pistol. See what abstract artwork you can produce.</p>   |
| 6 | Miss Enright    | <p>One thing I love to do is to create foods and drinks that can cool me down during hot Summer days. You could create your own smoothies, ice lollies or some ice cold lemonade. Why not create a recipe to share with friends and families, so they too can cool off?</p>                        |
| 7 | Miss Gill       | <p>Do you have any chalk at home? Why not have a go at creating your own obstacle course, just like the ones in our playground! It's a fun way to get exercise and practise co-ordination! You could even draw it on a path or the pavement, where other people can use it too! There are lots</p> |

|  |  |  |
|--|--|--|
|  |  | <p>of ideas for things to include online, but be as creative as you like!</p>  |
|--|--|--|

|   |            |  |
|---|------------|--|
| 8 | Mrs McCook | <p>What can you paint with mud? I can't wait to see your creations!</p>  <p><b>MUD PAINT</b></p> <p>INGREDIENTS:<br/>Mud, Powder Paint/ Paint/ Food Colouring, Dish washing Liquid, Water, Cardboard and Painting Implements.</p> <p>DIRECTIONS:</p> <ul style="list-style-type: none"> <li>• Place your mud in individual containers.</li> <li>• Add a colour source from the ingredients list.</li> <li>• Add a squirt of dish washing liquid (this helps the mud paint to spread and helps remove colour from clothing)</li> <li>• Mix it up with some water to reach the desired texture.</li> <li>• Paint away!</li> </ul> |
|---|------------|--|

|   |             |  |
|---|-------------|--|
| 9 | Mrs Hopkins | <p>I love having decorations and ornaments in my garden. I would like you to have a go at making your own wind chime. You can use materials that you have in your home or garden like sticks, beads, buttons or old keys. There are lots of ideas online, be creative! I look forward to seeing your wind chimes.</p>  <p><b>25 wind chimes</b><br/>---for kids---</p> |
|---|-------------|--|

|    |           |   |
|----|-----------|---|
| 10 | Miss East | <p>I love being outside and thought it would be nice to use some natural resources. So why not create a picture. It could be a picture of a face, rainbow, house or an animal. Let your imagination go wild.</p>  |
|----|-----------|---|

|           |                       |   |
|-----------|-----------------------|---|
| <p>11</p> | <p>Miss Vickers</p>   | <p>Have you ever had a go at shadow drawing? It works best either early in the morning or late in the afternoon when the sun is lower in the sky. Find some objects from around your house and have a go at drawing around the objects shadow. Be as creative as you like using a variety of resources.</p>   |
| <p>12</p> | <p>Miss Seabright</p> | <p>Let's have a water fight! Can you make your own water gun using a bottle with a hole in the lid? Gather buckets, cups, hoses and even water balloons to have an epic water battle. Why not play in teams and make sure the adults get a real soaking! Have fun everyone!</p>    |
| <p>13</p> | <p>Miss Gwenin</p>    | <p>As many of you know, I find plants fascinating. My challenge to you is to grow something from a seed for example cress, flowers e.t.c. You may even want to include some recycling by creating your own growing container from used items e.g. yoghurt pot. Remember to get adult help to create holes in the bottom to allow for drainage. Consider where you will grow your plant to ensure it gets plenty of sunlight e.g. windowsill or sunny part of your garden. Remember to regularly water it!</p>    |
| <p>14</p> | <p>Mrs Jones</p>      | <p>What patterns will you create?</p>  <div data-bbox="1098 1547 1417 2018" style="border: 1px solid black; padding: 5px;"> <p><b>TAPE SHAPES</b></p> <p><b>What you need:</b><br/>Masking tape, chalks (other media could be used if done on paper/ cardboard) and a space to create</p> <p><b>What to do:</b><br/>Tape out as big or small an area as you feel necessary - this could be done on paper, cardboard box, a path or the fence</p> <p>Use the masking tape to create shapes within the taped out area</p> <p>Colour in the different sections (we used chalk but if using paper you could use other media)</p> <p>Once finished peel off the masking tape</p> <p>Stand back and enjoy your masterpiece!</p> </div> <p style="text-align: right;">Gemma Ison</p> |

|    |              |  |
|----|--------------|--|
| 15 | Mrs Rumbelow | <p>Can you use things that you have in your house or garden to make an obstacle course? Make sure you include obstacles that will help you use different skills such as running, jumping, hopping and climbing. How fast can you complete your course? Try to beat your time!</p>  |
| 16 | Mrs Parry    | <p><b>Why not have a go at making some Ice Chalk Paint?</b></p> <p>You can use it to complete some of the other activities.</p>  <p>You will need:</p> <ul style="list-style-type: none"> <li>• Half cornflour (other flour will work too)</li> <li>• Half water (adding a little more will make it easier to mix)</li> <li>• Food colouring or washable paint</li> <li>• Washing up liquid (optional, but it will make cleaning up easier!)</li> </ul> <p>Mix your ingredients together, pour into moulds and freeze.<br/>Once frozen you have ice chalk!</p> |
| 17 | Mrs Summers  | <p>I love seeing all the wildlife out and about, on my walks in the countryside and in my garden. They will all be needing ways to cool off and things to eat throughout the summer!</p> <p>Can you find out what they need and create something for the wildlife outside? It could be a shelter/home, a feeding station or somewhere for them to get water or bathe. The choice is yours! I can't wait to see what you can create!</p>    |

|           |                     |  |
|-----------|---------------------|--|
| <p>18</p> | <p>Mrs Tompkins</p> | <p>A few years ago, Lancot children in Year 3 made a human sun clock on the field with the help of their parents. Can you make a human sun clock in your garden – on a patio or on the lawn, or maybe at the park? You can use chalk, pebbles or twigs to act as markers.</p> <p>Choose a standing point and mark this clearly. Starting at 7:00 am, 8:00 or 9:00 a.m, stand on your standing point and place a marker at the top of your shadow. Mark this with that hour. Continue to do exactly every hour until as late as you can. You will be able to use this to tell the time every day, whenever it is sunny.</p> <div style="display: flex; justify-content: space-around; align-items: center;">   </div>   |
| <p>19</p> | <p>Mrs Fountain</p> | <p>There is nothing nicer than opening the windows on a warm day and letting the sunshine in. I know that some of you are not able to get outside much because you are self-isolating. So, why not let the light into your home by making a sun catcher. I have attached some links for some great sun catcher craft ideas.</p> <p><a href="https://artfulparent.com/stained-glass-suncatcher-ideas-kids/">https://artfulparent.com/stained-glass-suncatcher-ideas-kids/</a></p> <p><a href="https://blog.hobbycraft.co.uk/how-to-make-three-suncatchers/">https://blog.hobbycraft.co.uk/how-to-make-three-suncatchers/</a></p> <p><a href="https://babbledabbledo.com/art-for-kids-cosmic-suncatchers/">https://babbledabbledo.com/art-for-kids-cosmic-suncatchers/</a></p> <p>I am looking forward to seeing what you create!</p> <div style="display: flex; justify-content: center; align-items: center;">  </div> |

Try some stone painting. You could leave them scattered around outside when you take your daily exercise. I am sure other children would be delighted to see them as they walk around the local area.
